Technology (2:1)

PROFILE STATEMENT

An extremely motivated individual, looking to constantly develop skills and grow professionally. I am enthusiastic about software development and video games. I consider myself to be a decent team player who is prepared to take on leadership responsibilities if necessary. I enjoy taking the initiative while maintaining a positive attitude and paying attentive attention to details. I have a strong capacity to remain calm in stressful situations while still being productive by constantly looking forward to the next challenge ahead.

EXPERIENCE

Junior Software Developer - Wellcome Sanger Institute, Genome Research Limited Oct 2022 - July 2023

Design front-end applications with the help of Figma and develop with NextJs, Tailwind, and S3.

- <https://cancer.sanger.ac.uk/cosmic/download>

Web Developer - Freelance/Personal Projects - Present

Develop front and back-end web architecture, based on design and usability. Ensuring the responsiveness and accessibility of applications is up to the highest standards.
